

# SUPPLY CHAIN CAREERS START HERE

Offer Students a Future-Proof Career Path with VCARE Academy

## WHY IT MATTERS

Students today want meaningful, well-paying careers. Supply chain offers that—and more. But it's often overlooked in education due to outdated job title classifications and lack of awareness.

### Currently Offered At

Irvine, Newport-Mesa, Saddleback Valley, and Tustin Unified School Districts online through Coastline ROP

## WHY SUPPLY CHAIN?

Supply chain is “every step in the process of getting a product or service to the customer.” That means every organization—from hospitals to Amazon—relies on supply chain professionals.

**44 million Americans** work in supply chain—that's over **1/3 of the U.S. workforce.**

Yet, most schools don't teach it—despite massive demand and career growth.

**The number of professionals in the field is vastly undercounted by academia.**

### About the Course

## SUPPLY CHAIN FRAMEWORK AND STRATEGY

Designed specifically for high school students, this beginner-level course provides a real-world, career-ready introduction to one of the nation's most important fields.

★ A-G Approved
